

Endocrine Grand Round: What's New in Cardiovascular Disease Prevention for Type 2 Diabetes?

Rollins School of Public Health Grand Round: Does Race Alter HbA1c Independently of Glycemia?

William "Bill" H. Herman, MD, MPH

Professor of Internal Medicine and Epidemiology, University of Michigan
Director of the Michigan Center for Diabetes Translation Research

As a practicing endocrinologist, his clinical interests focus on the prevention and treatment of diabetes, its complications, and comorbidities. His research focuses on the broad areas of clinical trials, epidemiology, health services research, and clinical economics. From 2015 to 2017, he co-chaired the American Diabetes Association's Professional Practice Committee.
