

Assessing the economic dimension of diabetes prevention and management: challenges and examples

Michael Laxy, PhD, MSc, MPH

Head, Working Group on Economics and Management of Diabetes, Institute of Health Economics and Health Care Management-Helmholtz Zentrum München & Harkness/B. Braun Fellow for Health Care Policy and Practice

Michael Laxy leads a working group on Economics and Management of Diabetes at the Institute of Health Economics and Health Care Management at the Helmholtz Zentrum München. His research focuses on economic evaluation of prevention and treatment strategies for metabolic diseases, and the analysis of health policies targeting patient health behavior and quality of care. He is a co-investigator on the population-based KORA research platform. Laxy received his doctorate in Epidemiology and Public Health from the Ludwig Maximilians University München.

Currently, Laxy is a Harkness/B. Braun Fellow in Health Care Policy and Practice placed at the CDC-Division of Diabetes Translation and the Emory Global Diabetes Research Center. His fellowship focuses on implementation aspects and the cost-effectiveness of life style based diabetes prevention.
